Dear Mr. Skrobecki,

We have reviewed the fluid properties and examined the 35VQ25 pump parts and test results, ATS 373 (ASTM D-6973) on HYDROL PREMIUM L-HM 32.

Based on the information we received, it is our opinion that HYDROL PREMIUM L-HM 32 meets the anti-wear requirements for the hydraulic fluid recommendations for Eaton Vickers products according to Brochure 03-401-2010.

Sincerely

Thelma Marougy
Lubricant Specialist
Eaton Hydraulic Operation
